LEADERSHIP & MANAGEMENT

Strategy & Delivery

Data & AI strategy, solution architecture, prioritization and delivery of analytics initiatives, business–technology alignment.

People Leadership

Leadership of multidisciplinary teams of more than 10 professionals, cross-functional coordination and technical direction.

Stakeholders & Growth

Executive stakeholder communication, strategic advisory, pre-sales and client-facing solution design.

BUSINESS APPLICATIONS

Pricing optimization, demand forecasting, inventory planning, market intelligence and quantitative trading.

TECHNICAL SKILLS

Quantitative Modelling

Pricing models, time-series forecasting, Bayesian modelling, simulation, optimization, survival analysis and customer lifetime value.

Machine Learning & AI

scikit-learn, XGBoost, TensorFlow, LLM applications, RAG, model evaluation and agentic workflows.

Data & Production

Python, SQL, pandas, NumPy, statsmodels, Docker, Git, Azure and n8n.

EDUCATION

Executive MBA 2024–2026
Católica Porto Business School

PhD, Theoretical Physics 2010–2014
Universidad Autónoma de Madrid

Master in Photonics 2009–2010
Universidad Autónoma de Madrid

Licentiate Degree, Physics
Universidade do Porto

LANGUAGES

Portuguese – Native
English – Certified C1+
Spanish – Lived in Spain for 12 years

EXECUTIVE PROFILE

Data Science and AI leader with over 10 years of experience combining quantitative expertise with business strategy and organizational leadership. Currently works as a Data Scientist and Subject Matter Expert, developing pricing and forecasting solutions for complex, data-sparse markets. Has led multidisciplinary teams of more than 10 professionals and delivered strategic analytics and AI initiatives for international clients across energy, finance, chemicals and industrial sectors. Holds a PhD in Theoretical Physics and is completing an Executive MBA.

PROFESSIONAL EXPERIENCE

Data Scientist | Subject Matter Expert Mar 2026–Present
AuctionConnect Porto / Remote

- Leads the quantitative approach to nowcasting and forecasting marine bunker fuel prices across global ports, aligned with commercial priorities and market needs.
- Converts fragmented market data, economic indicators and pricing signals into actionable intelligence for planning, risk assessment and strategic decisions.
- Develops robust statistical and machine learning frameworks for complex, data-sparse markets, balancing analytical accuracy with business applicability.

Data & AI Lead | Subject Matter Expert Nov 2019–Mar 2026
DataJuicers and Simia-Tech Madrid / Porto / Remote

- Led cross-functional teams of more than 10 data scientists, engineers and analysts, aligning business objectives, analytical rigour and timely delivery.
- Architected production-grade Data Science and AI platforms and advanced models for pricing, demand and inventory forecasting, and market intelligence.
- Served as a business–technology interface and strategic advisor to senior stakeholders; supported solution architecture, pre-sales and executive decision-making.

Quantitative Analyst Apr 2019–Oct 2019
Arfima Trading Madrid

Designed automated futures trading strategies, statistical and machine learning models, a custom backtesting framework and integrated risk management protocols.

Data Scientist Jun 2017–Mar 2019
DataJuicers Madrid

Delivered forecasting and machine learning solutions across business and industry; led a TensorFlow computer-vision recommendation project recognised by Google.

Researcher / Lecturer 2009–Jun 2017
Universidad Autónoma de Madrid & DIPC Spain

Taught Physics and Informatics Engineering, supervised student research, and worked in Computational Physics, Electrodynamics and Mathematical Methods.

RESEARCH & RECOGNITION

21	peer-reviewed publications	~50	international oral presentations
5	theses supervised (3 master's + 2 bachelor's)	AI	Science and AI research projects

Program Director, AI for Marketing — Católica Porto Business School.
